What is ACCADD?

ACCADD is ASCETA's dedicated training and production center for animation, digital storytelling, and creative technology. The center combines hands-on studio practice, industry-standard tools, and expert-led instruction to equip learners with real employable skills. Students learn by doing—working on animated films, series concepts, sound design projects, and production tasks just like in professional studios.

Our mission is to raise world-class animators and digital creators who can compete, innovate, and produce at global standards.

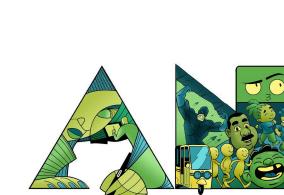

First government-backed animation diploma program in Nigeria.
